

Subject: Opposition to AB 503 & AB 504 - A Threat to Civil Liberties, Parental Autonomy, and Constitutional Principles

Dear [Committee Member's Name],

I hope this message finds you well. As a [resident and/or registered voter] in [Your District or State], I am writing to express my strong opposition to the proposed bills AB 503 & AB 504.

These bills don't just restrict public nudity; they also undermine parental autonomy by criminalizing parents who choose to expose their children to events where adult nudity may be present. This goes against the very principles of individual freedom and parental choice that are cornerstones of American values.

Furthermore, the bills' broad definitions raise alarming constitutional concerns. They could infringe on First Amendment rights related to freedom of expression and assembly. This puts at risk events like the World Naked Bike Ride, which serve as celebrations of body freedom and as peaceful protests against societal issues like oil dependency.

Such legislation does not merely limit individual freedoms; it also has broader cultural implications, endangering the constitutionally protected freedom of artistic expression.

I urge you to consider these serious implications and vote against AB 503 & AB 504 in the upcoming sessions.

Sincerely,

[Your Name]
